Program Notes

The Vocal Music Department of Edina Senior High School attempts to expose students to choral literature representative of the various historical periods and different musical cultures of the world. The program this evening will include selections from English, German, thuanian, Latin and American composers. It is hoped that the music performed will help cultivate a mutual respect and understanding for the music of the composers and the countries they represent on the part of the students and the listening audience. This year marks the 100 anniversary of the birth of William Dawson. He is perhaps most respon-ible for the large number of spirituals in our performing libraries today. Also in tonight's program are several pieces form the countries that used to be behind the Iron Curtain. We are just now getting all of this wealth of music in the rest of the world.
